

Paladin Summer Chess Classes

2007

With National Chess Master Gjon Feinstein

Learn to play Chess or improve your game this summer! Join the fun and explore the tactical and strategic concepts used successfully by the masters. Week-long summer classes for novice through intermediate level players will focus on fun while challenging students to develop a more complete understanding of the game.

- **Beginning** level classes will be introduced to the 3 phases of chess – the opening, middle and endgame. Basic objectives, tactics and strategies will be covered, in a fun, social classroom.
- **Intermediate** students will learn to analyze one's games, problem-solve, apply a three-step thinking process, use algebraic chess-notation and play match games with chess clocks.

Instructor Gjon Feinstein is a National Master and lifelong chess player with 12 years experience teaching chess in Santa Cruz county schools. Gjon led 3 teams of local players to 1st place division wins at the 1999, 2000 & 2005 California Scholastic Chess Championships.
